

M Kavya Sri

Hyderabad | kavyasrimedi9@gmail.com | +91-78424-71975 | LinkedIn | GitHub

Professional Summary

Computer Science undergraduate with a strong foundation in Data Structures, Algorithms, Object-Oriented Programming, and Software Development. Skilled in Python, Flask, SQL, Machine Learning, and Artificial Intelligence, with hands-on experience building web applications and AI-powered solutions. Experienced in applying NLP and machine learning concepts to real-world projects, from development to deployment. Passionate about problem-solving, backend engineering, and leveraging AI technologies

Technical Skills

Languages: Python, JavaScript, Java (basics), HTML, CSS, SQL

Core CS Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, DBMS, REST APIs, SDLC

Frameworks & Libraries: Flask, Streamlit, Pandas, Matplotlib, Scikit-learn, NLP (NLTK)

Databases: SQL (MySQL/SQLite)

Tools & Platforms: GitHub, Claude Code, Jupyter Notebook, Google Colab, Postman, VS Code

Soft Skills: Cross-functional collaboration, problem decomposition, proactive learning, technical communication

Education

Malla Reddy Engineering College (Deemed to be University), Hyderabad, Telangana

B.Tech in CSE (AI & ML), 2027

- CGPA: 8.44/10.0

- **Coursework:** Data Structures & Algorithms, DBMS, Object-Oriented Programming, Machine Learning, Web Development

Projects

VoltPredict – Electricity Price Prediction using Machine Learning GitHub | Live Demo

Tech Stack: Python, Scikit-learn, Pandas, NumPy, Django

Built an electricity price forecasting system using **Random Forest Regression** and historical energy market data.

- Engineered and processed weather, load, and temporal features using Pandas and NumPy.
- Deployed the trained ML model through a Django-based web application for real-time predictions.

LinguaFlow – Multilingual Translator | GitHub | Live Demo

Tech Stack: Flask, Python, SQLite, JavaScript

Developed and deployed a **full-stack multilingual translation platform** supporting multiple languages.

- Built **REST APIs** for language detection, translation, and history management.
- Enhanced user experience with voice input/output and responsive design.

Internship / Experience

Open Summer of Code (OSoC) 2025 – Contributor

Open Community | UPES | Remote | Jun 2025 – July 2025

- Built backend notification modules following SDLC practices.
- Integrated MongoDB with Node.js using OOP-based handlers.

AIML Training Intern

Edunet Foundation | Microsoft | AICTE | 2024

- Completed AI/ML training by Microsoft and AICTE covering the ML lifecycle.
- Built and evaluated ML models using Python, Scikit-learn, and Pandas with OOP design.

Certifications / Achievements

- Microsoft Certified: Azure AI Fundamentals (AI-900)
- Achieved AIR 4,337 among 30,000 participants in Naukri Campus Young Turks; scored 94% in Round 1
- NPTEL Certification — Programming, Data Structures and Algorithms using Python (IIT Madras)
- Postman API Fundamentals Student Expert — experience in API testing and REST workflows
- AI-ML Internship Certificate — Microsoft & AICTE
